

VICTOR 

**15 Reasons why
Victor is..**

**the
global
market leader**

GEN
ge 4 bar

H.P.

GLOBAL LEADER IN OXY FUEL TECHNOLOGY

15 REASONS WHY VICTOR IS THE BEST IN THE INDUSTRY

1. Universal mixer designed to work with **all fuel gases**
2. Low profile head and in line tubes provide **outstanding visibility** to the work area
3. Stainless steel cutting oxygen lever is positioned and contoured for **maximum comfort**
4. Ergonomic no-slip handle designed to **fit naturally in the hand** while reducing stress, allowing more **accurate** and longer cuts
5. Control valves made of stainless steel for **long life and consistency**

TORCHES

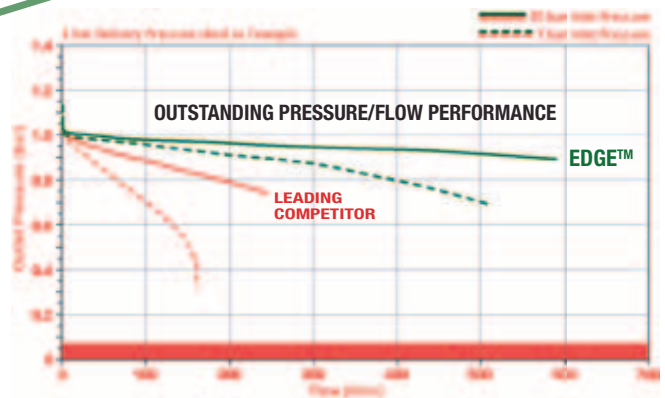

- 6. Gauges are recessed and bonnet material is over twice the yield strength of brass, offering **unrivalled protection from damage**
- 7. **Robust seat design** utilizes proprietary materials to give optimum performance
- 8. **Most consistent pressure and flow delivery** among single stage competition*
- 9. High **resistance to oxygen related fires** due to contamination in the work place
- 10. SLAM™ knob **absorbs impact** in the event of a cylinder fall

REGULATORS

SLAM™ TECHNOLOGY

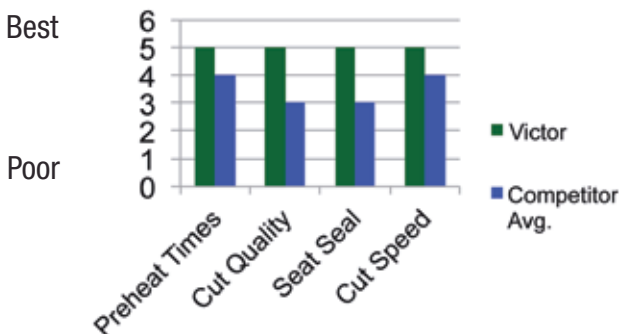

- 11. 12 Step Process and 100% testing results in one of the world's **most consistent** nozzles
- 12. Highly **optimized** for all widely used fuel gases
- 13. Broad offering giving precise flow and preheat fuel capacity to cover **numerous applications**
- 14. Flow passages are **smooth and efficient** due to world class manufacturing techniques **giving best all around cut quality***
- 15. Tapered seat design is **more forgiving and safer** for the user than other seats more prone to leakage

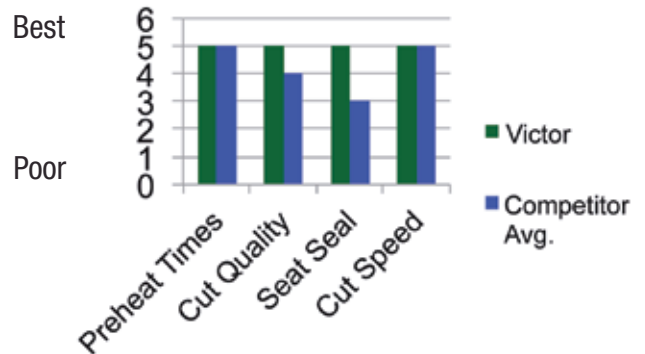

NOZZLES

Acetylene Nozzle

Propane High Speed Nozzle

* Tests conducted in Victor Technologies lab, a member of the Intertek (ETL) Supervised Applicant Testing programme
