

The original founder Peter Westerman, of Westermans International Ltd believes that a personal approach to business is the best and one way to succeed in today's turbulent World.

Hello, my name is Peter Westerman, and at 75 years old and still enjoying work by keeping my grey cells alive!

I have been running my Company for some 40 years of more, and nowadays I am joined by my son Craig who looks after Sales and my daughter Claire who takes care of the Finances which I am more than happy to let them do.

I travel mostly around Europe on my BMW motorbike, what a hard job, buying the best quality used welding equipment I can find, preferring to buy machines made by the main players like ESAB, Kemppi, Fronius and Bode.

We operate a very successful family firm, delivering throughout the world to more than 100 countries and of course the whole of the United Kingdom.

We are proud of the secondhand quality machinery we sell and every one is guaranteed.

After all these year of selling New and Used Welding Equipment, I seriously believe I know what is expected.

- Quality Equipment
- Fair Price
- Honest Talking
- Trustworthy Guarantee
- Realistic Deliveries

You have my word and commitment that we will always look after you.

Once met and never forgotten I hope , I am quite a well known character throughout the Welding Equipment industry and love nothing better than to meet and chat with other fellow businessmen on my travels, even more so if you are a biker!
