Why choose this machine?

The **ProArc PT-1000 Welding Positioner** is built to handle heavy components with precision and ease.

With a 1000kg load capacity, it offers smooth, controlled rotation for large workpieces — making complex welds faster, safer, and more consistent.

Designed to improve workflow and reduce operator strain, the PT-1000 positions your part exactly where you need it, eliminating the need for manual handling or constant repositioning. That means better ergonomics, higher productivity, and cleaner welds.

Whether you're fabricating pressure vessels, pipe spools, or structural components, this positioner ensures efficient, high-quality welding from start to finish. Backed by ProArc's engineering and Westermans' expert support, it's a smart addition to any professional welding setup.

Who is this machine for?

Ideal for fabrication shops, pipe spool manufacturers, and heavy welding operations that regularly work with large or cylindrical components. The PT-1000 is perfect for teams looking to improve safety, weld quality, and efficiency when handling workpieces up to 1000kg.

Industries include:

- Food & beverage
- Pressure vessel & tank fabrication
- Pipeline & pipe spool
- Oil & gas
- Offshore
- Power generation & utilities
- Automotive & heavy vehicle manufacturing
- Shipbuilding
- Steel fabrication & structural engineering
