Why choose this machine?

The **ProArc LS-18 Automatic Longitudinal Seam Welder** is the ideal solution for small to medium-sized businesses looking to boost productivity and welding precision.

With a generous 1900mm welding length, it offers precision and power in a compact footprint — ideal for space-conscious workshops.

Automation reduces labour time and improves efficiency, producing clean, repeatable welds with minimal operator input. It's perfect for increasing throughput while lowering costs and minimising errors.

Whether you're working in fabrication, HVAC, or stainless steel production, the LS-18 ensures a professional finish that helps your work stand out. Backed by ProArc engineering and Westermans' expert support, it's a reliable upgrade for growing operations.

Who is this machine for?

Ideal for manufacturing and fabrication workshops looking to automate and improve the quality of their longitudinal and seam welding. As well as increasing production rates and efficiency.

Industries include:

- Food & beverage
- Pharmaceuticals
- HVAC
- Automotive & commercial vehicles
- Pressure vessel & cylinder manufacturing
- General metal fabrication for cylindrical parts & frames
