

PORTACUT OXYFUEL

OUR PORTABLE HAND-CUTTING MACHINE

The PORTACUT is a universally applicable, hand-guided flame cutting machine for straight, shaped, circular, oblique, X & Y cuts. The infinitely variable motor allows a constant feed rate between 50-800 mm/min, depending on material thickness and nozzle type used. Easily cut sheets up to a thickness of 300mm with reproducible results for an increased quality assurance time and time again.

Available with our industry recognized MS832, and now our MS932 with patented quick nozzle change system. With the corresponding extension, operation with a dual torch system is also possible for complicated cuts in one motion, saving you time and repeated runs of the machine.

PORTACUT FOR ACETYLENE

Qty. Of torches	Type of torch	Type of nozzle	Article number	Catalog-No.
1	MSZ 832	Ring-Slot	71652022	006
2	MSZ 832	Ring-Slot	71611443 MOD 110V	006
1	MSZ 932	Cylinder	71655540 MOD 110V	006
2	MSZ 932	Cylinder	71655541 MOD 110V	006

PORTACUT FOR PROPANE, METHANE (NATURAL GAS)

Qty. Of torches	Type of torch	Type of nozzle	Article number	Catalog-No.
1	MSZ 832	Ring-Slot	71652024	006
2	MSZ 832	Ring-Slot	71611444 MOD 110V	006
1	MSZ 932	Cylinder	71655542 MOD 110V	006
2	MSZ 932	Cylinder	71655543 MOD 110V	006

PORTACUT GAS-MIXING

Qty. Of torches	Type of torch	Type of nozzle	Article number	Catalog-No.
1	MSIDZ 832	Gas-Mixing	71652026	006
2	MSIDZ 832	Gas-Mixing	71611445 MOD 110V	006
