welding and cutting solutions that don't cost the earth

Slinger Beam Rotator - FR704

2025

The Slinger Beam Rotator delivers several key advantages. It provides significant time savings when turning workpieces and offers a much safer alternative to crane handling. By reducing reliance on the crane, it also helps minimise waiting times.

Its innovative design allows side loading, for example with a forklift, resulting in exceptionally fast setup times.

Using the Slinger Beam Rotator typically increases welder productivity by an average of 35-40%.

FR704

700

950x300

Specifications:

Capacity	4 Ton / Pair		Hydraulic oil	ISO VG 46
Rotation Speed	18 sec / 180°		Remote control	Included
Voltage	400 V		Adjustable table	Excluded
Power Consumption	3 Kw		Rotation Diameter	1000mm
