

K-TIG 1000 EVOLVE

PRECISION ELECTRODE GRINDER

High precision diamond-disk electrode grinding suitable for all K-TIG welding.

Environmentally friendly collection of dust particles.

High speed.

Simple operation.

TECH SPECS

Grinding angles	8 to 90 degree
-----------------	----------------

Grinding wheel	Diamond disk
----------------	--------------

Grinding speed	31m/sec
----------------	---------

Electrode centering	Yes
---------------------	-----

Automatic dust collection	Yes
---------------------------	-----

Liquid cooling	Yes
----------------	-----

Motor	110V-50/60Hz, 220V-50/60Hz
-------	----------------------------

Motor effect	280W
--------------	------

Motor speed	6000 rpm
-------------	----------

Overload protection	Yes
---------------------	-----

Min electrode length	15mm
----------------------	------

Weight	35 lbs (15.8kg)
--------	-----------------
