

HSC 500

FIXED HEIGHT HEADSTOCKS WITH MACHINE CHUCK

HSC 500

You Key to Precision Pipe Welding and Fabrication.

The HSC500 headstock is supplied with a 3 jaw self centering machine chuck for internal and external clamping. The machine is ideal for use in pipe shops, and can be used in conjunction with our Adjust-O-Stands pipe supports.

ESPECIFICATION HSC-500

Capacity	3000kg (6600lb) at C of G of 150mm (6")
Degree of Rotation	360°
Rotation Speed	Variable up to 2rpm
Overall Height	1200mm (47.25")
Height to Chuck	950mm (37.5")
Chuck Data	3 Jaw Self Centering Maximum Clamping diameter 500mm (20") External & Internal Clamping
Earthing	400 Amps
Control	Fwd / Stop / Rev / Speed Control / Emergency Stop Local or Remote - Select Option of Pendant / Foot Pedal
Control Type	A.C. Inverter
Incoming Supply	110V or 220/240V - 1Ph-50/60Hz
Weight	550kg (1212lb)
Optional	Gas Purging Facility

BUILT TO LAST. MADE TO PERFORM.
