## Why choose this machine?

**Accurate, controlled positioning.** With smooth rotation and adjustable tilt, this positioner helps you maintain ideal weld angles. While delivering cleaner, more consistent results.

**Compact, bench-top design.** Perfect for space-conscious workshops or production lines where floor footprint matters. Without compromising on capability.

**Built for precision work.** Ideal for TIG, MIG, or plasma welding on stainless steel, aluminium, and alloy parts. Delivering clean results time and again.

**Boosts productivity and safety.** Reduces manual handling, speeds up weld cycles, and helps reduce operator fatigue.

## Who is this machine for?

The PT-103 welding positioner is designed for fabricators and engineers handling small to medium-sized workpieces. Looking for better precision and control when welding. It's ideal for industries where consistency, repeatability, and clean welds are critical. Bring greater efficiency and accuracy to your workflow with this compact positioner.
