

Weld Torch Positioners

Torch Lowered

3-Axis AutoWeld Torch Positioner with lift stop

3-Axis Micro Torch Positioner with magnetic stop

Torch Raised

Enables accurate positioning of weld torch

Flexible modular system allows the torch can be mounted at any angle to the job

Magnetic stop system helps the operator by moving horizontally away from the part, whilst the AutoWeld hinge lifts up from the part into the park position. Assisting loading and unloading of the part.

Torch returns to exact position each time

Improved weld quality and consistency

Easy to set up in different positions
